

CRYSTAL X 2.0

Regular price \$279.00

The newly designed Crystal X 2.0 is now lighter and stiffer, with a mid-sized dihedral blade design engineered to be ultra smooth and responsive.

Straight glass, straight carbon and bent carbon shaft options
Precise feather control with our patented [fast ferrule](#)
2-piece breakdown for easy carry
Available in translucent red, blue, green and orange

The eye catching transparent blades paddle is as good as they look.
Our newly redesigned paddle is now stronger, lighter, and flutter free.
This genuine fully transparent blade is sure to be centre of attention wherever it goes.
Available in our new mid-angle dihedral blade shape.

“I” Beam Strength Pillar

A proprietary design incorporating an internal “I” beam reinforcement that runs the entire length of the blade and locks into the paddle shaft. The unique nature of this beam allows us to tune the feel of the blade and also allows the molding of a blade that is as light as composite while retaining the impact resistance of thermoplastic.

H2O performance paddle has a history of creating innovative and industry leading paddle designs. Never a follower, H2O has combined the injection moulding expertise of our parent company Dynaplas Ltd. with our passion for Paddlesports to create unique products that provide paddlers an unparalleled experience in both reliability and performance. We not only believe in creating the best paddles possible but also our responsibility to the environment. H2O Paddles is an environmentally certified ISO 14001 manufacturer, this belief led us to create our new Eco-Rec paddle with blades made from 100% reclaim material from our manufacturing process. Our drive to create the best paddles possible challenges the status quo and have led to a number of innovations, such as our Crystal Clear Blade Technology and Grip Indexed Ergonomic shafts. Located in Toronto, Ontario, Canada within Dynaplas Ltd's 95,000 sq.ft. facility H2O has access to significant engineering and production resources; with 60 high precision injection molding machines, an in house tool and die shop as well as the latest 3D CAD design systems. H2O will continue to be a leader in the Paddlesports industry for many years to come.

Warranty

H2O warrants that all products will be free of manufacturing defects for a period of 12 months from date of purchase.
